Accountants have a demanding job—they must be able to dig into complicated financial statements, create strategies for fiscal strength and build confidence and trust with their clients. Indiana Tech helps each student build a strong foundation in each of these areas.

Our accounting degree program is rigorous and engaging, led by Certified Public Accountants (CPAs) with both public- and private-sector experience. They will arm you with up-to-date knowledge of current industry developments, policies and regulations and help you refine your problem-solving skills. They will also help you develop an understanding of the ethical and professional standards of modern accounting.

Why choose Indiana Tech?

- Our tech-savvy instruction will teach you how to utilize and leverage technology in ways that add value to clients, customers and employers.
- Opportunities for industry internships will help you develop career skills, experience and contacts for career placement after graduation.
- Earn this degree in just three years (six semesters) through our 3-to-Degree program. You can also go on to earn an MBA, concentrating in accounting, in just one extra year through our 4+1 program.
- Our small class sizes create a more personalized learning experience for you.
- Indiana Tech fosters an active learning environment, enriched by instructors who possess years of experience in their respective fields.
