Business Administration – Financial Services, B.S.

ind.tc/child-development-bs

With a Bachelor of Science in Business Administration concentrating in financial services, you will acquire the skills and background necessary to be successful in a wide range of finance careers. You will take core business classes while earning this degree, as well as courses in accounting, mathematics and economics. This concentration covers the use of various financial assets, risk management, financial regulations and monetary policy.

The careers available in the financial services sector are many. Our graduates go on to work in fields such as banking, insurance, commercial and consumer lending, securities and retirement and investment planning. The strong understanding of risk management, insurance, regulations and interest provided through this Indiana Tech program is key to making sound, professional fiscal decisions. Driven, analytical leaders with good communication skills excel in this field.

Why choose Indiana Tech?

- Our tech-savvy instruction will teach you how to utilize and leverage technology in ways that add value to clients, customers and employers.
- You will learn how to incorporate research, data and analysis into metrics-driven decision-making.
- Financial regulations and their impact on every area of the financial services industry will be a key part of your curriculum.
- Opportunities for industry internships will help you develop career skills, experience and contacts for career placement after graduation.
- Indiana Tech fosters an active learning environment, enriched by instructors who possess years of experience in their respective fields.
