Indiana Tech’s College of Business is accredited by the International Accreditation Council for Business Education.

Our new MBA 5050 Executive Leadership course sets our MBA program apart from others in the region.

Find out how on side 2 of this sheet.

Health Care Management, MBA

indianatech.edu/programs/mba-healthcare-management

EARN YOUR MBA FROM INDIANA TECH IN 14 MONTHS OR LESS.

With a Master of Business Administration – Health Care Management, you will be equipped with the management skills necessary to advance medical facilities. As a Tech student, you will study the ethical issues involved in business as well as those specific to the practice and management of health care. We emphasize development of the problem-solving and decision-making skills necessary to lead teams, groups, divisions, and organizations. You also will learn the process of strategy formulation, implementation, and oversight of those organizations.

Health care managers are increasingly more vital as medical care and policies evolve, and as the Baby Boomer generation ages. These businessmen and businesswomen manage staff as well as plan and direct operations and facilities. Furthermore, they work closely with medical professionals to provide support and increase the quality of care, sometimes overseeing whole departments or facilities. Many work in hospitals, clinics, private practices, rehabilitative facilities and nursing homes.

Student Learning Outcomes

Upon completion of the Master of Business Administration – Health Care Management, you will be able to:

- Demonstrate advanced knowledge in the functional areas of business
- Hire, train, schedule and oversee medical staff
- Communicate clearly and professionally with a high level of interpersonal skills
- Increase efficiency and quality of care delivered at a health care organization
- Develop, plan and implement goals and objectives
- Manage finances of a health care facility
- Maintain compliance with changing health care laws and regulations
- Utilize complex problem-solving skills to determine solutions

Career/Salary Opportunities

Below are potential career opportunities available to graduates with a master’s degree in business administration with a concentration in health care management. Additionally, you will find national statistics for average annual salaries and projected job growth, as identified by BLS.gov statistics. Salaries can vary based on the market in which you live and the prior experience you bring to the position.

Why an Indiana Tech MBA is Better

At its foundation, Indiana Tech's MBA program is built on a core of seven courses that supplies you with fundamental business knowledge and an invaluable skill set that equips you for success in today's ever-changing business landscape. However, it's the first course you take—MBA 5050—Executive Leadership—that sets our MBA program apart from others in the region.

In MBA 5050, you will use the Leadership Circle Profile, an assessment tool utilized by top employers like Honda, FedEx and PriceWaterhouseCoopers that will reveal key opportunities for you to develop as a leader. Using that information, you will create a leadership development plan—your roadmap to transforming into the leader you want to become. After completion of MBA 5050, you will be paired with an executive coach who will help you make better sense of your self-assessments and give you sound advice as you put your plan into action.

As a result, you are able to apply a very personalized approach to your education—learning and growing as a leader while honing your knowledge and skills in your field of expertise. Get started today, and earn your MBA in 14 months or less at Indiana Tech.
